Welcome from the IETF Chair

Welcome to IETF 87 in Berlin! The previous time IETF was in Germany was in August 1997 in Munich – that was a long time ago but it is a pleasure to be back! I'm looking forward to collaborating with many talented and enthusiastic people throughout the week. And I'm very happy that we will have a large number of first time attendees with us this time – welcome to the IETF!

DENIC is the platinum sponsor for IETF 87. Deutsche Telekom, EURid, eco, Dyn, and ADVA Optical Networking are also sponsoring IETF 87. DENIC has also organized a social event at the German Museum of Technology (Deutsches Technikmuseum). I am looking forward to it. Deutsche Telekom is sponsoring the network connectivity. Many thanks to our sponsors; we could not have a quality meeting without your strong support.

Our fourth Bits-N-Bites event will take place on Thursday evening. It includes exhibitor tables, free food, and free drink. Attendance is optional, but our previous visitors seemed to have fun! I would like to thank the sponsors for making this event possible. There are tables from A10 Networks, Dyn, Comcast, Nominum, IPSO Alliance, Huawei, ICANN, and Internet Society.

I am particularly excited about the many new work proposals we have this time. The week includes 12 Birds of a Feather (BoF) meetings: STATUS, NSC, IPRBIS, POSH, STIR, 6TSCH, DMARC, AQM, DNSSDEXT, DICE, TCMTF, and 6LO. Be sure to follow the ones that might interest you!

I look forward to your participation this week, and I look forward to seeing you also at IETF 88 in Vancouver, BC, Canada on November 3rd to 8th, 2013.

Thanks for all you do for the Internet!

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of [RFC 5378](#) and [RFC 3979](#) (updated by [RFC 4879](#)).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

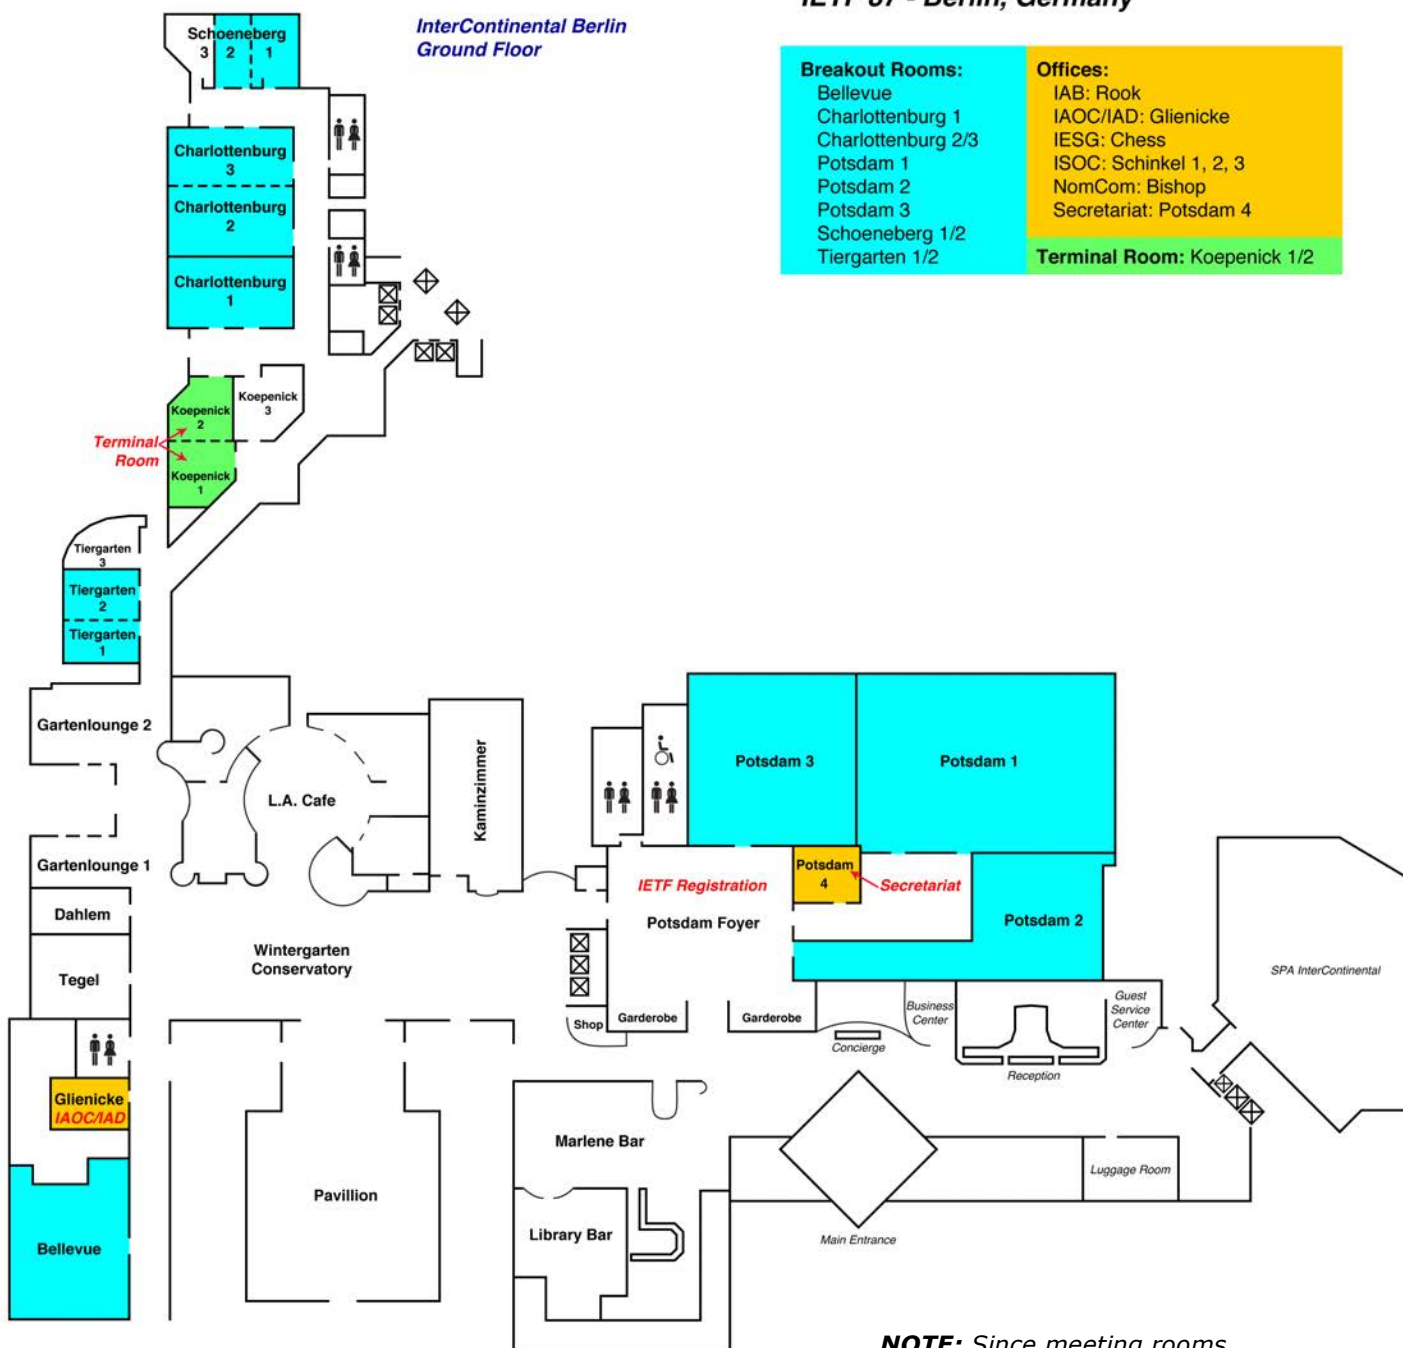

Please consult [RFC 5378](#) and [RFC 3979](#) for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
